# Evac dosing pump

## Cleaning solutions for pipelines

The Evac dosing pump regulates the exact chemical cleaning dosage that is fed into the integrated systems to remove grease and other blockages. Adjustable controlled, time-based chemical feeding provides best possible results, thereby avoiding deposits and blockages of any kind inside the treated object.

Dosing pump includes

- EDP1 pump
- Adapter for 5/10 liter container
- External power supply unit 230 VAC / 24VDC
- Suction tube 0.5 m
- Feed tube 5 m
- Pipe connector
- Installation and operating manual

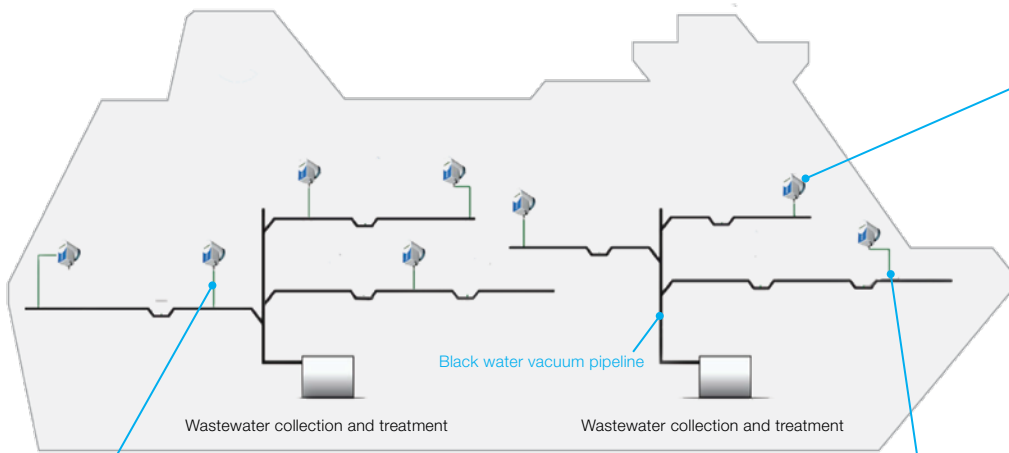

### Benefits

- Optimal chemical usage
- Reduced system repair and spare part costs
- Better functioning of toilets
- Enhanced chemical safety
- Environmental efficiency
- Easy to place due to compact size

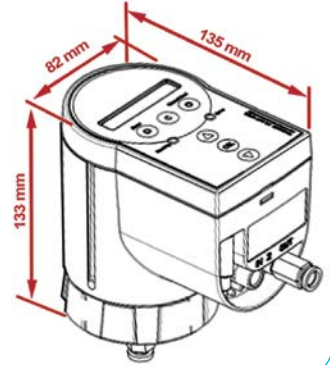

# Evac dosing pump

## Dosing unit

The dosing units should be placed in the service area / cabin service space.

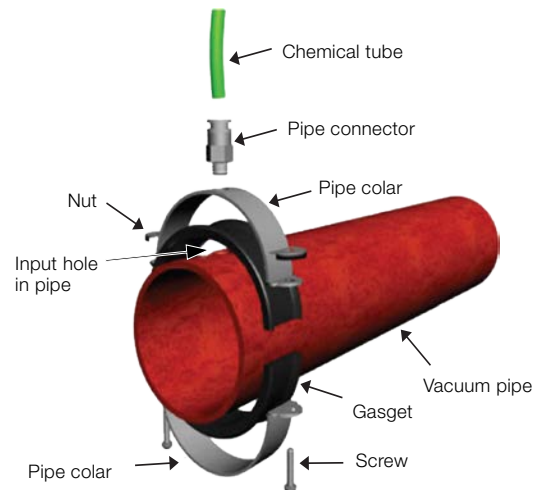

## Dosing tube

The dosing unit can be located up to 50 meters from dosing point.

## Technical specifications

- Suitable for use with acids, alkali, bacteria etc.
- Mounted directly in the place of the original container cap (container 5 - 30 l or barrel 200 l)
- Completely integrated unit with a pump, electronics, and a control panel
- Microprocessor controlled
- Real-time clock for accurate timing options
- User-programmable settings with time-based feeding and selected volume
- Monitoring of chemical quantity
- User friendly menus for scrolling and setting feeding times and other feedback
